

## Lista książek zakupionych przez US dostępna w kolekcjach eBook Collection(EBSCOhost), Wiley Online Library i deGruyter

| Lp. | Tytuł                                                            | Autor                             | ISBN          |
|-----|------------------------------------------------------------------|-----------------------------------|---------------|
| 1   | Church, liberation and world religions                           | Aguilar, Mario I.                 | 9780567273246 |
| 2   | Cybersecurity and Cyberwar : What Everyone Needs to Know         | Singer, P. W.                     | 9780199918119 |
| 3   | Dictionary of Law                                                | Collin, P. H.                     | 9780747566366 |
| 4   | Geography Basics                                                 | Sumner, Ray.                      | 9781587651779 |
| 5   | Geology                                                          | Woodhead, James A.                | 9780893565220 |
| 6   | Geschichte der Welt 1870-1945                                    | Osterhammel, Jurgen, Iriye, Akira | 9783406641053 |
| 7   | Introduction to Nanomedicine and Nanobioengineering              | Prasad, Paras N.                  | 9781118093436 |
| 8   | Media, Memory, and the First World War                           | Williams, David,                  | 9780773535077 |
| 9   | My Revision Notes AQA AS History: Life in Nazi Germany 1933-45   | Warnock, Barbara, Ellis, Steve    | 9781444177459 |
| 10  | Partial Differential Equation Analysis in Biomedical Engineering | Schiesser, W. E.                  | 9781107022805 |
| 11  | Theology as an empirical science                                 | Macintosh, Douglas Clyde          | 9780415822428 |
| 12  | Women Workers in the First World War                             | Braybon, Gail                     | 9780415622707 |

| Lp. | Tytuł                                                     | Autor                                                 | ISBN          |
|-----|-----------------------------------------------------------|-------------------------------------------------------|---------------|
| 1   | A Classical Introduction to Galois Theory                 | Newman, Stephen C.                                    | 9781118091395 |
| 2   | A Course In Commutative Banach Algebras                   | Kaniuth, Eberhard.                                    | 9780387724751 |
| 3   | Sorting : A Distribution Theory                           | Hosam M. Mahmoud                                      | 9781118032886 |
| 4   | A First Course In Fourier Analysis                        | Kammler, David W.                                     | 9780521883405 |
| 5   | Advanced Calculus: An Introduction to Linear Analysis     | L. F. Richardson                                      | 9780470232880 |
| 6   | Advances In Ring Theory                                   | Jain, S. K.-López-Permouth, S. R.-<br>Huyhn, O.V.     | 9783034602853 |
| 7   | Algebraic Graph Theory : Morphisms, Monoids, and Matrices | Knauer, Ulrich                                        | 9783110255096 |
| 8   | Algebra : Einführung in die Galoistheorie                 | Stroth, Gemot                                         | 9783110290707 |
| 9   | Algebra and Pre-algebra : It's Easy!                      | Wingard-Nelson, Rebecca.                              | 9780766042513 |
| 10  | Algebraic Geometry                                        | Rubei, Elena                                          | 9783110316230 |
| 11  | Algebras, Quivers and Representations                     | Buan, Aslak Bakke.-Soiberg, Oyvind.-<br>Reiten, Idun. | 9783642394843 |
| 12  | An Introduction to Category Theory                        | Simmons, Harold                                       | 9781107010871 |
| 13  | An Introduction to Classical Complex Analysis             | Burckel, R. B.                                        | 9780121417017 |
| 14  | An Introduction to Homological Algebra                    | Rotman Joseph J.                                      | 9780387245270 |
| 15  | Applied Functional Analysis                               | Aubin, Jean Pierre.                                   | 9780471179764 |
| 16  | Approximative Algorithmen und Nichtapproximierbarkeit     | Jansen, Klaus / Margraf, Marian                       | 9783110203172 |
| 17  | Arithmetic and Geometry Around Quantization               | Marcolli, Matilde.-Manin, Y. I.-Ceyhan,<br>Ozgür.     | 9780817648305 |
| 18  | Arithmetic and Geometry Around Galois Theory              | Dèbes, Pierre.                                        | 9783034804868 |

|    |                                                                                                |                                                         |               |
|----|------------------------------------------------------------------------------------------------|---------------------------------------------------------|---------------|
| 19 | Bounded Variation and Around                                                                   | Jurgen Appeil, Józef Banas, Nelson Jose, Merentes Diaz  | 9783110265118 |
| 20 | Brownian Motion : An Introduction to Stochastic Processes                                      | Rene L. Schilling, Lotkar Partzsch                      | 9783110278989 |
| 21 | C*-algebras and Elliptic Theory                                                                | Bojarski, Bogdan.                                       | 9783764376864 |
| 22 | Classical Fourier Analysis                                                                     | Grafakos, Loukas.                                       | 9780387094311 |
| 23 | Classical Algebra : Its Nature, Origins, and Uses                                              | R. Cooke                                                | 9780470277980 |
| 24 | Classical and Multilinear Harmonic Analysis                                                    | Muscalu, Camil;Schlag, Wilhelm                          | 9780521882453 |
| 25 | Combinatorial Methods in Discrete Distributions                                                | Charalambos A. Charalambides                            | 9780471733188 |
| 26 | Commutative Algebra : Noetherian and Non-noetherian Perspectives                               | Fontana, Marco                                          | 9781441969897 |
| 27 | Commutative Algebra : Recent Advances in Commutative Rings, Integer-valued Polynomials, and Po | Giaz, Sarah-Frlsch,Sophle-Fontana, Marco                | 9781493909254 |
| 28 | Complex Function Theory                                                                        | Heins, Maurice                                          | 9780123379504 |
| 29 | Complex Multiplication                                                                         | Schertz, Reinhard                                       | 9780521766685 |
| 30 | Computational Methods of Linear Algebra, Second Edition                                        | G. Sewell                                               | 9780471742142 |
| 31 | Computational Noncommutative Algebra and Applications                                          | Byrnes, Jim.-North Atlantic Treaty Organzation          | 9781402019821 |
| 32 | Connections Between Algebra, Combinatorics, and Geometry                                       | Sather-Wagstaff, Sean;Cooper, Susan M.                  | 9781493906253 |
| 33 | Cubic Forms                                                                                    | Manin, YU.I                                             | 9780444878236 |
| 34 | Differential Geometry                                                                          | Stoker                                                  | 9780471504030 |
| 35 | Discovering Mathematics with Magma                                                             | Cannon, John;Bosma, Wieb.                               | 9783540376323 |
| 36 | Dynamics in One Complex Variable                                                               | Milnor, John W.                                         | 9780691124889 |
| 37 | Elements of the Representation Theory of Associative Algebras                                  | Assem, Ibrahim;Simson, Daniel;Skowroński, Andrzej.      | 9780521584234 |
| 38 | Elemente der diskreten Mathematik                                                              | Volker Diekert, Manfred Kufleitner, Gerhard Rosenberger | 9783110278163 |
| 39 | Elliptic Diophantine Equations                                                                 | Nikos G. Tzanakis                                       | 9783110281149 |
| 40 | Fibonacci and Catalan Numbers: An Introduction                                                 | Grimaldi                                                | 9781118159743 |
| 41 | Fibonacci and Lucas Numbers with Applications                                                  | T. Koshy                                                | 9780471399698 |
| 42 | Finite Field and Their applications                                                            | Ed. by Charpin                                          | 9783110283600 |
| 43 | Fourier Analysis                                                                               | Stade, Eric                                             | 9780471669845 |
| 44 | Fourier Anatsysis and Nonlinear Partial Differential Equations                                 | Bahouri, Hajer;Danchin, Raphaël;Chemin, Jean-Yves,      | 9783642168291 |
| 45 | Function Classes on the Unit Disc : An Introduction                                            | Miroslav Pavlovic                                       | 9783110281903 |
| 46 | Functionals of Multidimensional Diffusions with Applications to Finance                        | Baldeaux, Jan;Platen, Eckhard                           | 9783319007465 |
| 47 | Game Theoretic Risk Analysis of Security Threats                                               | Azaiez, M, Naceur.;Bier, Vicki M.                       | 9780387877662 |
| 48 | Geometric Algebra Computing                                                                    | Scheuermann, Gerik,;Bayro Corrochano, Eduardo.          | 9781849961073 |
| 49 | Glimpses of Algebra and Geometry                                                               | Tóth, Gábor                                             | 9780387953458 |
| 50 | Groups and characters                                                                          | L.C. Grove                                              | 9781118032688 |
| 51 | Handbook of Linear Algebra                                                                     | Hogben, Leslie                                          | 9781466507289 |

|    |                                                                                                    |                                                                   |               |
|----|----------------------------------------------------------------------------------------------------|-------------------------------------------------------------------|---------------|
| 52 | Homological Algebra of Semimodules and Semicontramodules                                           | Positselski, Leonid; Arkhipov, Sergey.; Rumynin, Dmitriy          | 9783034604352 |
| 53 | Introduction to Banach Algebras, Operetors, and Harmonie Analysls                                  | Dales, H. G.                                                      | 9780521828932 |
| 54 | Introduction to Banach Spaces and Algebras                                                         | Allan, Graham R.-Dales, H. G.                                     | 9780199206537 |
| 55 | Introduction to Modern Number Theory                                                               | ManIn, YU.I.; Panchishkin, A. A.                                  | 9783540203643 |
| 56 | Introduction to Real Analysis                                                                      | Bauldry, William C.                                               | 9780470371367 |
| 57 | K-theory                                                                                           | Karoubi, Max.                                                     | 9783540798897 |
